SAURABH SINGH NEGI

Front End Developer.

7617469685 • srbhnegi333@gmail.com • https://www.linkedin.com/in/srbhnegi/

Summary

Highly motivated and skilled Computer Science Engineering graduate with a solid foundation in front-end development. Proficient in HTML, CSS, JavaScript, and modern front-end frameworks such as React . Adept at creating responsive and visually appealing web applications with a strong emphasis on user experience.

Projects

YouTube Clone

- The project focuses on building a basic **YouTube Clone** in ReactJs. The project used the YouTube API to get the videos. These videos are displayed to the user, showing all the details just as the original YouTube displays. To fetch real-time data from Google's YouTube database, this project used Google's YouTube v3 API.

Crypto Tracker

- The **Crypto Tracker** project is a web application built using ReactJs that allows users to track the real-time prices of various cryptocurrencies. It utilizes the CoinGecko API to fetch up-to-date market data for a wide range of cryptocurrencies, providing users with the latest information on price changes.

E-Commerce

- The **E-Commerce** project is a comprehensive web application developed using ReactJs that simulates an online store. The project utilizes Axios for making API requests to manage products and orders efficiently. The application is designed to be user-friendly and responsive, ensuring accessibility across different devices.
